

Our difference

JP Dixon redefines different

We know that finding the right real estate agent can be hard. But unlike other agencies, we don't skew the numbers to make ourselves look good. Instead, we work harder and smarter – and let our satisfied clients do the talking.

Vendor paid advertising? It's a 'no' from us.

"Vendor paid advertising" refers to the advertising dollars you spend to market your home – often unnecessarily. Other agents will tell you to pay thousands on advertising. But what they don't tell you is that a large chunk of that money often finds its way back to them.

At JP Dixon, we don't believe that's right. And we've shown time and again that you don't need to spend big to win big. We keep costs low, no matter what the value of your home.

Learn more about our philosophy when it comes to vendor paid advertising.

Unique is best. And this is why.

If you're like most people, you've been charmed by a big agency at some point in your life. They're smooth. They're slick. And they say all the right things.

However, they're also inflexible – with big overheads and big fees to match.

But at JP Dixon, our small size is, and always has been, a huge advantage to our clients. It keeps us agile. It keeps our fees low. And it enables us to provide a truly tailored experience every time.

Always an open book

JP Dixon has gone from strength to strength for over 40 years. And that's not by chance.

With us, you get honesty, you get transparency – and you get a team of straight shooters who tell it like it is. No nasty surprises. And no unfair strings attached.

And if we believe an offer isn't high enough, we'll tell you so. No quick and easy commissions here.

A strong Peninsula presence

Although we're most well-known in Bayside, we also have a strong presence and network right along the Peninsula. That's because JP Dixon has gone 'mobile'.

We don't need offices to help the vendors that need us. In fact, we service Peninsula by doing the exact opposite. By letting go of the bricks and mortar – and overheads that go with it – our Peninsula clients enjoy the same low fees and the exemplary service our Bayside clients have come to love and expect.

No 'buts' about hard work

Our effort isn't determined by the value of your property or the pay off at the end.

If you've entrusted JP Dixon to sell your home and achieve its valued price, we'll do it no matter what. We always go the extra mile to put a smile on your face – no 'ifs' or 'buts' about it.

We work our hardest for you, guaranteed. It's what all real estate agents should do, but often don't.

Our reputation isn't a façade. It's a fact.

No regulations exist around how real estate agencies report their results. That's why so many skew the statistics in their favour. From auctioning off properties to reduce their 'days on market' rates to quoting REIV and website reports selectively, they'll try to make themselves look good at any cost.

But that's not how we do things at JP Dixon. We don't waste time creating ways to impress you. Instead, we invest every minute into getting your home the best price possible – because your satisfaction is enough proof for us.
