Zippering for rain or shine, land or water

At Paskal, we believe in durability without compromise. That means our zipping is always designed to perform – and built to last.

As a master manufacturer, you create products that campers, sailors, scuba divers and other outdoor lovers can trust.

So it's only natural you want premium zipping to match.

From tents to boat sails, zips are a core component in any piece of outdoor equipment. But they're also the most likely to break – especially in extreme conditions. That's why at Paskal, we understand for you and your customers, durability is a must.

So no matter what equipment you manufacture, you can rely on our zipping day after day, year after year.

SUPERIOR STRENGTH

Rugged mountains, humid forests, dry deserts and snowy fields. Our zipping can tough it in any terrain.

Using our innovative weaving design, our zip tape is 15% stronger than anything else in the market. The Box and Pins on our open-end zippers are also 25% tougher!

WATER RESISTANT

No more discolouration, mould or mildew.

Our zipping uses highly water-resistant tape so your equipment can withstand the wetter seasons – and your customers can stay dry and warm.

MARINE-GRADE STEEL

We are one of the only manufacturers in the world to use marine-grade stainless steel for our sliders.

Our grade 316 sliders are extra resistant to corrosion, extreme heat and rusting. Better yet, they're affordable – so you get more for less.

UV RESISTANT

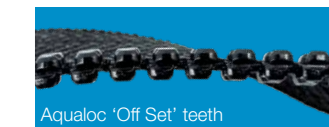

Thanks to extra UV inhibitors in our zip teeth and tape, you can say goodbye to premature cracking and colour loss.

What's more, we use solution dyed black yarns to prevent further fading.

A closer look at our premium zippers

Blending our deep expertise and decades of manufacturing experience, we've developed two zippers that are better for your equipment – *and* your customers.

AQUALOC ZIPPER

Aqualoc 'Off Set' teeth

PREMIUM MOULDED ZIPPING

Premium moulded teeth

Ideal for	Wetsuits, marine covers, boats	Camping tents, marine covers, tarpaulins, boats
Why it's better	Tailor-designed for the marine and wetsuit industries, our Aqualoc zipper uses an 'Off Set' teeth system. That means no water splashing through the zip teeth. Because the tape is also water resistant, there'll be no mould, mildew or fraying from salt crystals either.	Thanks to UV inhibitors, our premium moulded zipping is safe from UV degradation. Better yet, our ingenious top stop design makes changing sliders easier than ever. This zipping also has a lateral strength of 55kg – and superior colour fastness.

The Paskal story

In 1994, we set out to give the outdoor equipment industry what it needed most: high-quality zipping at affordable prices. Driven by hundreds of loyal clients over the years, we're now a leader in Australia – with over 4,000 products to our name.

Since day one, we've strived to push the limits of innovation.

Whether it's water-resistant tape or a sturdier slider, we create products that our clients can trust and their customers can rely on – in any condition.

How do we do it? Through in-depth research, a rich understanding of our customers and big-picture thinking.

Today, we're one of the country's leading zipping providers, with distributors across Australia and New Zealand. Our name has become synonymous with quality.

When manufacturers think 'reliable', they think 'Paskal'.

What makes us different. What makes us *better*.

120+ YEARS' INDUSTRY KNOWLEDGE

Drawing from the best of the best around the world, we blend over 120 years of knowledge in designing and crafting superior zips.

COMPREHENSIVE QUALITY CONTROL

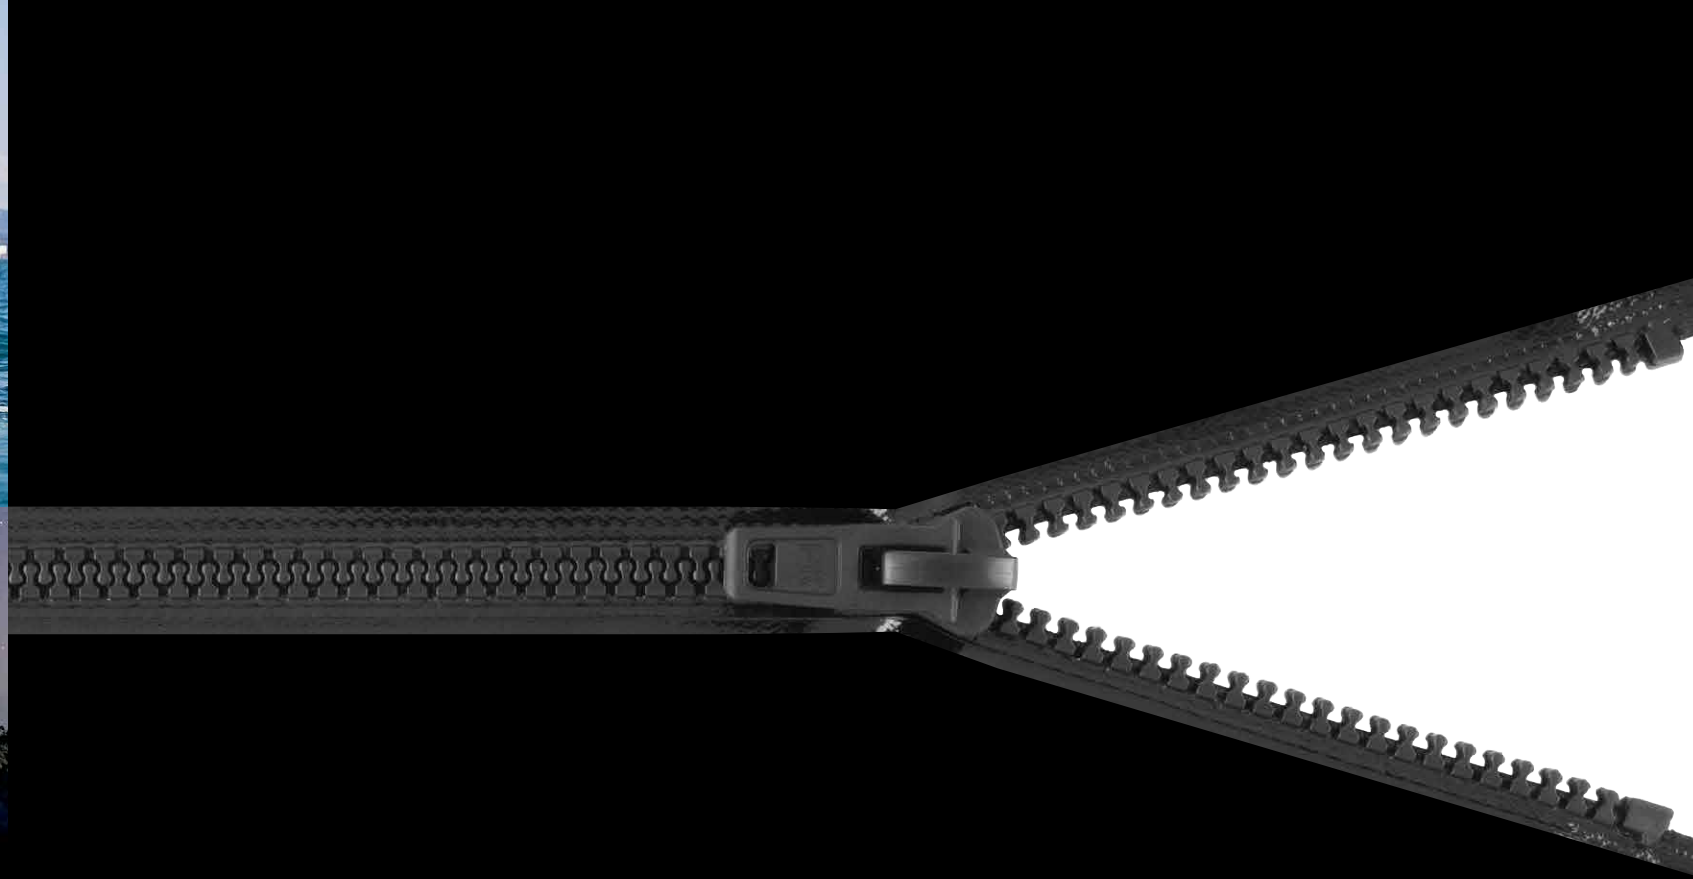

We oversee the entire manufacturing process from start to finish. It's the only way to ensure our exceptional standards are met and maintained, time and again.

DURABLE ZIPPING AT FAIRER PRICES

We believe you deserve robust zipping at prices you can afford. That way you get better products, happier customers – and a stronger bottom line.

SPECIALISED IN OUTDOOR EQUIPMENT

We've gone above and beyond to understand your unique needs as an outdoor equipment manufacturer, so we can deliver you zipping that's truly fit for purpose.
